## **DETAILED ACTION**

### ***Double Patenting***

The argument in the response after final rejection is persuasive. The provisional obviousness-type double patenting rejection on claims 1-7 is withdrawn.

### ***Allowable Subject Matter***

1. Claims 1-7 are allowed.
2. Claims 8-13 and 24 are objected in the previous office action and now are allowed.
3. Claims 14-20 are allowed in the previous office action.

The following is an examiner's statement of reasons for allowance (repeat from previous office action):

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims:

References S/N 11/180,989 and Kim et al. do not disclose:

- The passivation layer comprises photosensitive material.
- Another passivation layer disposed between the color filter.
- A contact assistant is made of the same material as the pixel electrode.
- The entire bottom surfaces of the data line and the drain electrode are disposed substantially on the semiconductor layer, the data line and the drain electrode

Art Unit: 2814

have substantially the same planar shape as the semiconductor layer, and the semiconductor layer includes a portion that is not covered with the data line and the drain electrode and disposed between the source electrode and the drain electrode.

Therefore, the above references do not disclose the claimed invention of present application and claims 8-13, 14-20, and 24 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wai-Sing Louie whose telephone number is (571) 272-1709. The examiner can normally be reached on 7:30 AM to 4:00 PM.
